

**Kettlethorpe**  
**HIGH SCHOOL**

Kettlethorpe High School  
Progression Steps  
Graphics – Year 7

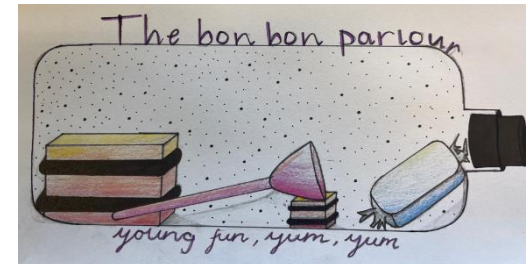

7

- Has shown an exceptional understanding of all of the 6 graphic design components by using sentences to explain, in detail, key characteristics. A wide range of technical language used.
- Has produced a very wide range of experiments, using all of the graphic design components.
- A very wide range of different medium used with exceptional control.
- A very wide range of different techniques used with exceptional control.
- The final graphic design includes all of the 6 components and demonstrates exceptional technical skill and execution

6

- Has shown an excellent understanding of all of the 6 graphic design components by using sentences to explain, in detail, key characteristics. A wide range of technical language used.
- Has produced a very wide range of experiments, using all of the graphic design components.
- A very wide range of different medium used with excellent control.
- A very wide range of different techniques used with excellent control.
- The final graphic design includes all of the 6 components and demonstrates excellent technical skill and execution

## 5

- Has shown a good understanding of all of the 6 graphic design components by using sentences to explain key characteristics. A good range of technical language used.
- Has produced a wide range of experiments, using all of the graphic design components.
- A wide range of different medium used with good control.
- A wide range of different techniques used with good control.
- The final graphic design includes all of the 6 components and demonstrates very good technical skill and execution

## 4

- Has shown an understanding of most of the 6 graphic design components by using short sentences to describe key characteristics. A range of technical language used.
- Has produced a range of experiments, using most of the graphic design components.
- A range of different medium used with some control. A range of different techniques used with some control.
- The final graphic design includes most of the 6 components and demonstrates good technical skill and execution.

### 3

- Has shown some understanding of a minimum of 4 graphic design components by using labels and short sentences to describe key characteristics. Some technical language used.
- Has produced a small range of simple experiments, with a minimum of 3 of the graphic design components.
- The final graphic design includes a minimum of 3 components and shows some consistency in technical skill and execution.
- Use of some different medium used with basic control.
- Some different techniques used with basic control

### 2

- Has shown some understanding of a minimum of 3 graphic design components by using labels to highlight key characteristics. Very little technical language used.
- Has produced more than 3 simple experiments, with a minimum of 2 of the graphic design components.
- The final graphic design includes a minimum of 2 components and is inconsistent in technical skill and execution.
